# SALVAGE AND SELF-ASSEMBLED VEHICLE INSPECTIONS

Before a self-assembled vehicle or a salvage vehicle can be titled in Ohio, an inspection of the vehicle must be completed by the Ohio State Highway Patrol.

The purpose of this inspection is to verify the ownership of all parts and to review all required documentation. The inspection is not intended to certify the vehicle's safety, road worthiness, or the quality of workmanship. Each inspection requires a separate \$50 fee. Anyone needing a vehicle inspection shall proceed as follows:

**I. Obtain an application for the inspection at any Deputy Registrar location.**

**II. Telephone your local inspection location for an appointment. You must be prompt when reporting for the inspection to avoid being rescheduled.**

**III. Present all required documentation for salvage inspections:**

1. Ohio salvage title in the name of the person applying for title. Assigned titles and out-of-state salvage titles cannot be accepted.
2. Receipts for all replaced "major component parts" are listed below. This includes the Vehicle Identification Number (VIN) of the source vehicle. If receipts are from a casual sale by an individual, they must be notarized.

Photocopies of receipts are not acceptable.

**MAJOR COMPONENT PARTS LIST\***

Engine	Hood
Deck Lid	Transmission
Bumper	Tailgate
Front Fenders	Doors
Hatchback	Rear Quarters
Rear Door	Frame
Dash	Air Bag(s)

\*Receipts may also be required for any parts with a fair market value of \$100.00 or more.

**ANY PARTS PRESENTED THAT ARE QUESTIONABLE OR MISSING VEHICLE IDENTIFICATION NUMBERS ARE SUBJECT TO SEIZURE.**

3. The inspection officer may require receipts or documentation for any part of questionable origin (4505.11 ORC).

4. A receipt for the \$50 inspection fee.

**IV. Documentation required for self-assembled inspections:**

1. Titles, receipts, and documentation of the source for the replaced major component parts, which includes the Vehicle Identification Number (VIN) of the source vehicle. If receipts are from a casual sale from an individual, they must be notarized. Photocopies of receipts are not acceptable.
2. The inspecting officer may require receipts or documentation for any part of questionable origin (4505.11 ORC).
3. When "kits" are used, the manufacturer's certificate of origin must be presented.
4. A receipt for the \$50 inspection fee.

**V. Inspection procedures**

1. The vehicle must be completely rebuilt and ready for highway operation.

2. Before either a salvage or self-assembled inspection is conducted, all receipts and documents will be examined. The inspection will not be completed if any are incomplete, incorrect, or missing.
3. The person presenting the vehicle for inspection will be permitted in the inspection area only when authorized by the inspecting officer.
4. The applicant may be instructed to remove certain body parts from the vehicle before arriving for inspection. During the inspection, it may be necessary to remove certain parts to allow examination of VIN's. It may also be necessary to leave the vehicle overnight.
5. **Any vehicle or component part bearing a VIN or VIN derivative determined to be stolen/missing or altered will result in the vehicle being impounded and held as evidence and/or seized for forfeiture.**

Failure to meet all the requirements as set forth above, will necessitate a rescheduling of the inspection.

The State of Ohio assumes no liability for any damage resulting from removing parts to permit examination or for any damage resulting from replacement of these parts.
