Yourself

When traveling this summer throughout Ohio

Patience, caution, and following Ohio's traffic laws are the best ways to be safe while travelling in Ohio this summer. Here are some other tips to help make this a safe summer travel season.

Keep the Safe Seven in your vehicle

1. Cellular phone or CB radio
2. Flares or reflectors
3. "Send Help" or "Call Police" sign
4. White flag or handkerchief
5. First aid kit
6. Flashlight
7. Reflective tape

1-877-7-PATROL

Highway Patrol troopers need your help to keep Ohio roads safe. Please call toll-free **1-877-7-PATROL** to receive highway help, report aggressive drivers, and advise troopers of disabled vehicles.

Road Construction

One of summer's most frustrating driving-related headaches is road construction. Road closures, orange barrels, and long delays will affect many Ohio drivers this summer. Despite the inconveniences, remember these projects are necessary to make sure roadway surfaces are safe for travel. The Patrol has a number of ways to help motorists plan ahead for construction and other travel delays.

1. You can check travel conditions statewide through the Patrol's toll-free road and weather conditions hotline, **1-888-2-OH-ROAD**.
2. Road and weather conditions, as well as updated information on road construction projects, are available through the Patrol's Web site at <http://www.state.oh.us/ohiostatepatrol/> and the Ohio Department of Transportation Web site at <http://www.odotonline.org/otis/>.
3. Look for the Ohio State Highway Patrol's *On the Road* segment each week on the Ohio News Network for details on locations around the state where motorists should expect travel delays, and increased enforcement efforts.

DUI Enforcement

State troopers ask motorists who call **1-800-GRAB DUI** or cellular ***DUI** to report a possibly impaired driver to try to provide as much of the following information as possible: Location and direction the other vehicle is traveling; vehicle make and model; and the license plate number if available.
